

# AdvaClear®

Advanced Support for Balanced Detoxification♦

**AdvaClear** provides unique support for balanced activity of the body's detoxification processes.♦

- Promotes feelings of renewed vitality, energy, and well-being by supporting bifunctional detoxification.♦
- Bifunctional support enhances the activities of several hepatic detoxification enzymes while promoting balanced activity of the Phase I and Phase II detoxification pathways.♦
- Protects against free radicals generated during Phase I detoxification by featuring a variety of nutrients with potent antioxidant properties.♦
- When used with a macronutrient formula, provides a versatile, modular approach to a balanced detoxification.♦
